Appointed by Danish Renewable Energy Firm Elquator Sdn Bhd

KUALA LUMPUR – Messrs Goik Ramesh & Loo have been appointed by Danish renewable energy firm Elquator Sdn Bhd, and its associate companies, to advise on its litigation and corporate matters.

Elquator, a Danish company specializing in sustainable energy generation through utilizing the combined energy of sun, wind, heat and water. Their unique technology, developed in Denmark, forms an integral part of the alternative and renewable energy sources that produce safe, reliable and increasingly clean electricity for power generation in ASEAN countries.

“We are delighted to represent Elquator in their litigation matters as well as advising on their corporate matters. The renewable energy business is a fast growing segment. Elquator provides the technology and expertise required to benefit from available opportunities in this market”.

“We believe Elquator appointed our firm due to its expertise in renewable energy business and related technologies”.

Our partner Casey Goik, supported by associate Christie Ling Chui Lin, will act as our lead counsel for Elquator in all matters going forward.
